

Rosalind Compute Nodes

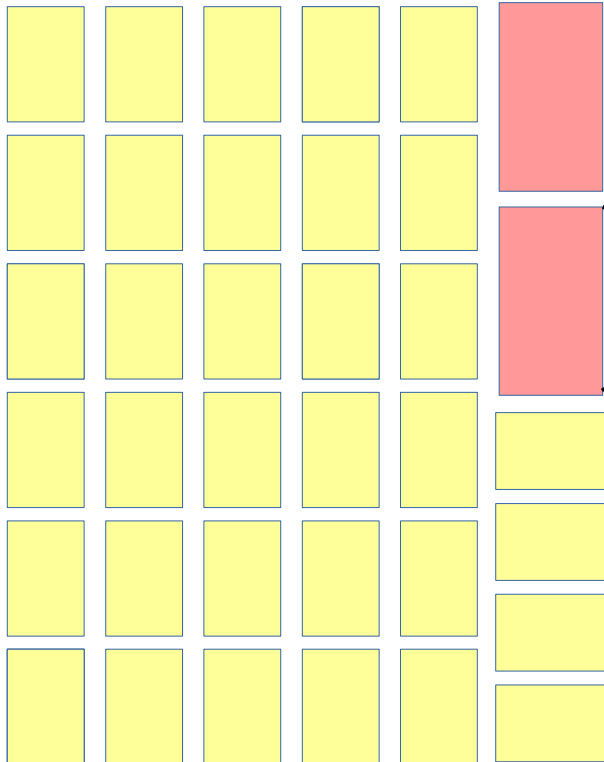

- 32 standard compute nodes (yellow)
- 2 high memory compute nodes (red)

Example of **a single standard compute node** on Rosalind:

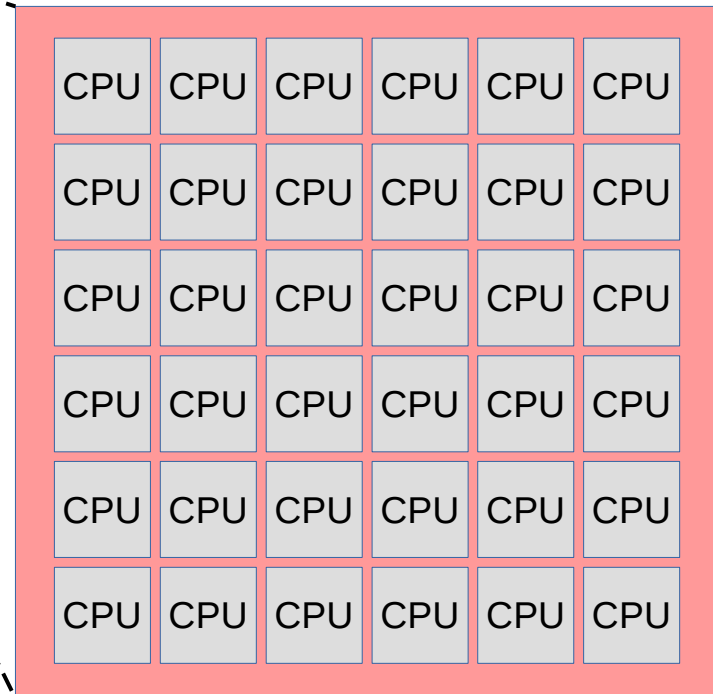

128 GB total RAM in a node
24 CPU cores in a node

Rosalind Compute Nodes

- 32 standard compute nodes (yellow)
- 2 high memory compute nodes (red)

Example of a **high memory compute node** on Rosalind:

1536 GB total RAM in a node
36 CPU cores in a node
